Maywood, Illinois 60153

RECEIVED

MAR 23 1984

ILL. E.P.A. - D.L.P.C.  
STATE OF ILLINOIS

Dear Mr. Bechely:

We acknowledge receipt of your letter of March 14, 1984 and are responding in writing regarding the alleged violations within the ten (10) day period as instructed.

We are in apparent violation because of our interpretation of the regulation regarding recycled or reclaimed. We now realize that our interpretation was in error and we are not exempt from the reporting aspects of the regulation.

We have corrected the error in the manifesting of our shipments and a program of recording the inspections of the hazardous waste tank is underway.

We have taken steps to contact a consultant regarding the contingency and training aspect of the regulation to bring ourselves into compliance. We will address the documentation of arrangement with familiarizing the local governmental agencies with the hazardous aspects of our facility when preparing the contingency plan.

We will keep you apprised of our progress and hope the necessary details will be in complete compliance by the middle of June.

In addition to the above action, I will be attending a seminar on Hazardous Waste Management Compliance on April 6, 1984. I hope these arrangements meet with your approval.

Sincerely,

BEE CHEMICAL COMPANY

Larry Burns  
Materials Manager
